

SKYLAB SERIES
CORRESPONDENCE AND WEEKLY ACTIVITY REPORTS

This subseries includes documents and correspondence from 1971 dealing with a variety of topics: minutes of meetings, design reviews, specifications, testing, procedural matters, and management issues. The material is primarily from four offices at NASA's Manned Spacecraft Center, Houston: Program Control (Management Operations), Systems Engineering, Test Operations (Manufacturing and Test), and Orbital Workshop Project Office. Folders are grouped by mail code (KP, KS, KT, and KW respectively) with documents arranged chronologically. (See boxes 524-526 for related material.)

Inventory

SubHeading:	Box Number: 776	
	KP - Program Control Office (Management Operations)	July-October 1 1971
	KS - Systems Engineering Office	January-December 1971
	KT - Test Operations Office (Manufacturing and Test)	January-March 1971
