

SKYLAB SERIES
POST SKYLAB MISSION PROPOSALS

This subseries originally consisted of files from the office of Kenneth S. Kleinknecht, Skylab Program Office Manager; additions have been made. Their original order has been retained and they are arranged chronologically in two separate groups. The first group is the Skylab 2 (or Skylab B) file which contains proposals, presentations, and correspondence for a second Skylab Mission. The second group, Post Skylab Mission Files, contains planning documents and correspondence for a post-Skylab mission study conducted in 1971.
