

ASTP SERIES
APOLLO - SOYUZ EXPERIMENTS DOCUMENTS

This subseries consists of proposals for experiments that were rejected, documents generated for the development of experiments that were accepted and flown on the Apollo - Soyuz mission, and the experiment program management files. Boxes 1266 - 1268 contain proposals for the rejected experiments. The proposal files are labeled by experiment title, principal investigators' names, and a NASA-assigned experiment number in the form MA-000. The files are arranged numerically. Boxes 1269 - 1271 contain proposals and development documents for experiments that were performed on the Apollo - Soyuz mission. These files are arranged by experiment number (MA-000). Within each file, documents are organized chronologically. Boxes 1272 - 1273 contain files generated for the management of the Apollo-Soyuz experiment program. The files are arranged alphabetically by subject. Documents are organized chronologically within the files. See also Flight-Related Documents, boxes 1294 - 1305.
