

CENTER SERIES
MSC WEEKLY / QUARTERLY REPORTS

The Manned Spacecraft Center regularly reported its activities to the Office of Manned Space Flight at Headquarters in the 1960's and early 1970's. These reports came in the form of weekly activity reports or consolidated quarterly activities reports. The practice of submitting quarterly reports ended in 1968 with what George Mueller called "minimal impact in OMSF." However, less comprehensive weekly reports continued until 1971. The practice was formally discontinued on August 10, 1971. The Center continues to generate weekly reports for its own use. Weekly reports and quarterly reports are filed separately. The material within each run is filed chronologically. Dates range from 1962 to 1971. The series is nearly complete with the exception of 1966 which is missing.
