

SHUTTLE SERIES SHUTTLE PHOTOGRAPHS

The Shuttle Photographs are made up of 8x10 photographs and viewgraphs and cover the years 1969-1983. NASA-generated photos and viewgraphs are arranged chronologically by year and numerically within each year. Rockwell-generated photos and miscellaneous photos (unnumbered) are filed at the end of each year. Miscellaneous photos that are unnumbered and undated are filed at the end of the run. The collection contains only Shuttle-related photographs and viewgraphs and, therefore, numerical runs are incomplete.
