

SKYLAB SERIES**NASA FIELD CENTERS CHRONOLOGICAL FILES**

The Skylab chronological files are miscellaneous reading files collected by the JSC History Office during the writing of the Skylab chronology. The subseries consists of correspondence, meeting minutes and agenda, and memoranda originating at NASA field centers other than the Johnson Space Center. These include the Marshall Space Flight Center, the John F. Kennedy Space Center, the Goddard Space Flight Center, the Langley Research Center, the Lewis Research Center, the Ames Research Center, the Jet Propulsion Laboratory and Wallops Station. The majority of the material was generated between 1966 and 1974 with only some small exceptions. Documents are filed according to field center and chronologically within each folder.
