

SHUTTLE SERIES
PHASE C/D SEB VIEWGRAPHS

This subseries contains all the viewgraphs used by the SEB in their score compilation and in their presentation to the NASA Administrator (July 17-18, 1972) as well as viewgraphs used by Grumman, Lockheed, and McDonnell Douglas in their oral presentations to the source evaluation board on June 7-8, 1972. The first group is the SEB presentation material. The folders are organized according to the presentation agenda as shown on the master cue sheet in the first folder. The charts within each folder are organized numerically. Following the SEB presentation charts are the SEB scoring charts. The contractor charts follow and are organized numerically within each contractor section.
