Historical Note

The Bay Area Houston Economic Partnership (BAHEP) has been serving the Harris County/Galveston County region of southeast coastal Texas since being incorporated on December 16, 1976, as the Clear Lake Area Economic Development Foundation (CLAEDF). The CLAEDF was rebranded as the Bay Area Houston Economic Partnership (BAHEP) on May 16, 2003. BAHEP has evolved into a member-driven organization that provides the leadership to stimulate regional economic development and employment. Utilizing a collaborative committee structure, BAHEP engage more than 280 investor companies, business professionals, local governments, and educational institutions within the region to help attract businesses to the region. The organization's members include business partners encompassing 16 cities, and Galveston and Harris counties.

BAHEP's president and staff are responsible for the daily operations of the organization, which is governed by a Board of Directors. Membership investment almost exclusively funds the organization's mission. BAHEP's goal of would not be possible without the financial support and valuable time given by its members. A number of member-driven committees engage in many of BAHEP's initiatives. These committees are industry-focused and address the needs of the aerospace, maritime, specialty chemical, healthcare, education, and small business sectors, among others.

Additionally, BAHEP and its strategic partners work on behalf of local, regional, state, and national issues which affect economic development and quality of life in Bay Area

Houston. Such partnerships include NASA Johnson Space Center, the Space Alliance Technology Outreach Program (SATOP), Bay Area Houston Advanced Technology Consortium (BayTech), Bay Area Houston Transportation Partnership (BayTran), and regional chambers of commerce.

BAHEP initiates responsible economic development throughout the region by executing a Strategic Plan that optimizes the balance between business factors, quality-of-life, regional needs, and sustainable growth.
