

## CENTER SERIES

### FLIGHT CREW OPERATIONS DIRECTORATE

This series contains correspondence, reports, presentations, and photographs (1958-1982) (bulk dates 1962-1975) dealing with astronaut activities. The present Flight Crew Operations Directorate came into existence on March 10, 1983. Previous offices with similar responsibilities included: Astronauts & Training Group (1959-1962), Flight Crew Operations Division (1962-1963), Flight Crew Operations Directorate (1963-1974), and Flight Operations Directorate (1974-1983). The series is divided into six subgroups of material, as indicated by the capitalized subheadings in the inventory. Correspondence (1958-1987) (bulk dates 1962-1979) is arranged alphabetically by subject, such as astronaut selection, training, and related issues such as pay, military affiliation, and medical care. Training Office Activity Reports (1962-1973) were released weekly and monthly to summarize, in narrative form, the astronaut training activities for the various programs. Crew Training Reports (1965-1975) are log reports of training sessions. These are bound by program & flight and arranged chronologically. Gemini Training Documents (1964-1966) contain crew reports, correspondence, and training session logs for each flight, arranged by flight number. Reports and presentations (1959-1988) is a subgroup of chronologically arranged material which did not belong in another heading. Photographs of trainers and simulators (1959-1976) are arranged alphabetically by subject. CORRESPONDENCE
