

SKYLAB SERIES

POST SKYLAB PLANNING

Planning for the future use of Skylab technology began long before the Skylab flights themselves. This subseries includes debriefing material and planning documents which were part of this long-range planning process. Related material can be found in Boxes 585-599, Post Apollo Planning Documents; 774-775, Post-Skylab Mission Proposals; and 835-844, Flight-Related Documents.
