

SHUTTLE SERIES LUNNEY DOCUMENTS

This subseries consists of documents collected by Glynn S. Lunney between 1978 and 1980. At that time he was manager of the Shuttle Payload Integration and Development Program Office, which was later renamed the Space Transportation Systems Operations Office. His documents consist primarily of copies of presentation charts from various meetings, briefings and reviews. The folders have been maintained in the order they were received and the folders are organized by date. The collection consists of three linear feet of documents.
