## **Office of Institutional Effectiveness**

# Texas Department of Criminal Justice Student Profile: Fall 2011 to Fall 2015 February 2016

University of Houston Z Clear Lake

### University of Houston-Clear Lake Office of Institutional Effectiveness Enrollment Management Trends: Texas Department of Criminal Justice Students Report compiled on February, 2016

This report consists of a 5 year demographic study for Fall terms. The demographic data pages present actual UHCL certified data extracted from a PeopleSoft query for inclusion of each student's most current Academic Plan record. Student level data uses a CBM-001 extract and SCH information is derived from the CBM-004 class report as well. If variance exists when comparing these figures to other previously published reports, it is important to note that these data may follow a different methodology. Totals by school and classification have all been verified with actual certified THECB reports for accuracy.For questions please contact OIE. Thank you.

<sup>1</sup> Beginnng Summmer 2010 Ethnic groups were changed by THECB to: White, Black, Hispanic, Asian, Aerican Indian, International, Native Hawaiian/Pacific Islander and Multi-racial

<sup>2</sup> First Time or Transfer students are recorded on the certified CBM-001 report and represent students entering the reporting institution for the first time but who have previously attended another postsecondary institution at the same level (e.g., undergraduate to undergraduate or graduate to graduate). This does not include an institution's own graduates who re-enter for further education. This variable does include graduate students who are accepted into a master's or doctoral program for the first time. A "No" for this variable would indicate a continuing or returning student.

<sup>3</sup> Residency represents the county, state, or foreign country of which the student is a resident as identified by the student as his/her permanent address at the time of application to the institution. This variable should not be used to identify how students are actually charged tuition as other factors are involved in that determination.

<sup>4</sup> Tuition status indicates the status of the student for tuition purposes. For Fall 2006 new measures were implemented to provide a greater level of accuracy for this variable. However, this variable is not a reliable indicator for how tuition may have actually been charged to students.

5 Before Spring 2013, the Semester Credit Hours information was derived from the CBM001 student report. Beginning Spring 2013, the CBM004 Class Report is now used to calculate this variable.
