

CENTER SERIES**HABITABILITY STUDIES LONG-DURATION SPACE MISSIONS**

This subseries contains materials relating to habitability aspects of spacecraft and planetary bases on long-duration space missions, and the influences of architecture, food, color, etc. on the morale and productivity of humans in space. This artificial collection was compiled to bring together research on this subject that began with Skylab (1969-1977), continued through space station studies (1985-1988), and finally focuses on advanced planning for a lunar base and Mars mission (1990-1992). The provenance of some of the Skylab documents appears to be Jeri W. Brown, who is currently Division Manager for Lunar/Mars Exploration, Man-Systems Division, Life Sciences Directorate, and interestingly enough is involved and named in the 1990-1992 materials. The provenance of the Planetary Surface Systems (PSS) reviews is Martha Evert, who also works in the Man-Systems Division. The Skylab and Habitability Studies (1985-1988) sections have been arranged chronologically. The remainder of the subseries was originally grouped into the various divisions listed below: MASE/PSS Trade Study Review June 13-14, 1990 LMEO Program Review Board July 16-19, 1990 PSS Technical Status Review Board October 4, 1990 LeRC SEI Review November 8, 1990 PSS Interim Review December 11-13, 1990 PSS Final Review March 26-28, 1991. The documents in these divisions have been integrated in their original order, regardless of date. The subseries ends with the meeting materials of the Human and Habitation Systems, a Level IV group concerned with lunar/Mars programs. The meetings are fairly consistent from June 1990 to January 1992, and are arranged chronologically. Items of interest in this collection are: handwritten notes on Skylab memos concerning divisions of habitability research; the file on various aspects of clothing in space; photographs of AAP garment development; the space station human productivity study volumes; the program chart illustrating the hierarchy of the Human and Habitation Systems Team in the overall program (March 27, 1991); and JSC-23848, Lunar Base "Construction Shack."

Inventory

SubHeading:	Box Number: 1	
SKYLAB	Study of Radiation Hazards to Man on Extended Near Earth Missions	March 25, 1969
SKYLAB	Memo on Habitability support for AAP, Space Station and Space Base (with handwritten commentary on enclosures)	December 24, 1969
SKYLAB	Memos (3) on Habitability for Skylab	February-May 1970
SKYLAB	NASA TM X-1982 Earth-Orbiting Space-Base Crew Skills Assessment	April 1970
SKYLAB	AAP Garment P.R. (28 photos of storage facilities, 14 photos of garments)	1970
SKYLAB	File on hygiene, laundering, and storage of clothing in space	1971-1974
SKYLAB	Skylab Experiment M487 Habitability / Crew Quarters Baseline Data for Environment	February 16, 1973
SKYLAB	Skylab Experiment M487 Habitability / Crew Quarters Baseline Data for Off-Duty Activity Equipment (ODAE)	March 30, 1973
SKYLAB	Skylab Experiment M487 Habitability / Crew Quarters Baseline Data for Personal Hygiene, Equipment and Facilities	April 13, 1973
SKYLAB	Skylab Experiment M487 Habitability / Crew Quarters Baseline Data for Architecture	May 8, 1973
SKYLAB	Drafts of Final Report on Experiment M487 (memos, personal comments from Caldwell Johnson, large sheet comparison of crew debriefs on garments, research, etc.)	1973-1974
SKYLAB	JSC-09677 NASA TM X-58163 Skylab Experiment M487 Habitability / Crew Quarters	October 1975
SKYLAB	Concept Design and Alternate Arrangements of Orbiter Mid-Deck Habitability Features	January 30, 1976

SubHeading:	Box Number: 2	
SKYLAB	JSC-12856 Application of Skylab Workday Analysis to Future Programs	May 1977
SKYLAB	Skylab I - Experiment M-487 Habitability / Crew Quarters	n/d
SKYLAB	Handbook of Garment Selection Criteria for a Space Station	n/d
SKYLAB	Skylab 3 - Experiments M-487 and M-516 Related Crew Debriefing Comments from SWS-Systems Debriefing (tape transcription)	n/d
SKYLAB	Skylab 4 - Experiments M-487 and M-516 Crew Debriefing (tape transcription)	n/d
HABITABILITY STUDIES (1985-1988)	NASA TM-58264 Design Study of an Integrated Aerobraking Orbital Transfer Vehicle	March 1985
HABITABILITY STUDIES (1985-1988)	Space Station Human Productivity Study Final Report - v. 3 - Requirements	November 1985
HABITABILITY STUDIES (1985-1988)	Space Station Human Productivity Study Final Report - v. 4 - Issues	November 1985
