

SKYLAB SERIES**SPACE SCIENCE RESEARCH PUBLICATIONS**

The publications in this subseries are concerned with aspects of space science relating in part to investigations conducted during the Skylab missions. The publications are listed in chronological order and range from 1963 to 1982. The collection was given to the Archive by the Reference Department of the Fondren Library at Rice University in 1990. Related material may be found in the subseries Post Skylab Science Reports and Symposia.

Inventory

SubHeading:	Box Number: 926	
	Planetary Flight Handbook, vol. 3 Parts 1 and 2	1963
	Manufacturing Technology Unique to Zero Gravity Environment	November 1, 1968
SubHeading:	Box Number: 927	
	Rice University: Final Report on NASA Research Grant covering Research on Materials for advanced Electronic and Aerospace Application	1978
	Approximate Analysis of Thermal Convection in a Crystal-Growth Cell for Spacelab 3	June 1982
	Space Processing and Manufacturing	October 21, 1969
	Research Achievements Reviews, vol. III Report No. 7: Radiation Physics Research at MSFC	1969
	Motion of an Artificial Satellite in an Eccentric Gravitation Field	May 1970
	Proceedings of the Conference on Experimental Tests of Gravitation Theories	November 11-13, 1970
