

## SKYLAB SERIES

### NEWS BRIEFINGS AND RELATED PUBLICATIONS

Included in this subseries are five boxes of news briefings by the Skylab News Center (JSC) during Skylab Missions 2, 3 and 4. The briefings date from 6/11/73 to 2/8/74; each briefing begins with a heading indicating the subject discussed, the date, place, and location, and the names of the participants and their job titles within NASA. A transcription of the briefing itself follows this information. The briefings are filed in chronological order. The last two boxes of this subseries consist of several NASA publications, all dealing with some aspect of the Skylab Program, and released to provide the press or the general public with technical information on the program. They include extensive descriptions of Skylab operations and are often heavily illustrated. One of the publications, the seven-volume "Skylab Experiments" series, was specifically designed to be used by teachers in the classroom. The publications are filed in chronological order.

#### Inventory

<b>SubHeading:</b>	<b>Box Number: 875</b>	
	Skylab Briefing	February 3, 1971
	Press Conferences	Jan - Oct 1972
	News Briefings	May 11 - 26, 1973
	"What's Skylab All About?" A Special Broadcast for Young People (Preliminary Draft)	May 12, 1973
<b>SubHeading:</b>	<b>Box Number: 876</b>	
	News Briefings	June-Aug 1973
<b>SubHeading:</b>	<b>Box Number: 877</b>	
	News Briefings	Aug 16 - Nov 15, 1973
<b>SubHeading:</b>	<b>Box Number: 878</b>
