

CENTER SERIES
WHITE SANDS TEST FACILITY

This subseries contains material (1963 - 1990) dealing with the White Sands Test Facility, JSC's part of the White Sands Missile Range. Engineers test propulsion and rocket capabilities at White Sands. The collection consists, for the most part, of correspondence files from each of the five major offices at White Sands, the Manager's Office, Engineering, Propulsion Test, Administration and Laboratories. Also included are some miscellaneous photographs, activity reports, public affairs publications and a file kept by Scott Simpkinson.
