

SHUTTLE SERIES KSC DOCUMENTS

Inventory

SubHeading:	Box Number: 1	
	An Analysis of Some Apollo / Saturn V Design Features Applicable to the Space Shuttle, Which Resulted in Operational Difficulties, TR-1105	April 8, 1971
	Space Shuttle Recovery Requirements (Facility / Flight Hardware Interfaces) TR-1135	December 1, 1971
	Possible Alternate Sites for the Space Shuttle Operational Runway and Logistic Traffic Model TR-1181	June 15, 1972
	Operation & Maintenance Instruction, Wet CDDT / Flight Readiness Firing (LPS) - PAD, STS-1, Vol. I	February 7, 1981
SubHeading:	Box Number: 2	
	Operation & Maintenance Instruction, Shuttle Landing - Post Landing Convoy Operations KSC-SLF	February 12, 1981
	Shuttle Turnaround Analysis Group Meeting #19 Minutes	February 26, 1981
	Flight Readiness Firing Overview	February 1981
	Kennedy Space Center, Space Transportation System and Cargo Launch Commit Criteria Implementation Plan	April 6, 1981
	Shuttle Turnaround Analysis Report	May 28, 1981
	Launch and Landing Projects, Schedules and Status Summary K-SM-031	June 10, 1981
	Space Transportation System Cargo Projects, Launch Site Support Plan, Draft Issue	August 1981
	Shuttle Turnaround Analysis Report	January 14, 1982
	Space Shuttle, Launch and Landing Program Support Plan, Volume II - Cargo, Basic	May 1982
SubHeading:	Box Number: 3	
	Space Transportation System Cargo Projects, Launch Site Support Plan for EArth Radiation Budget Satellite (ERBS) Annex 8 to Payload Integration Plan, JSC-14050	April 1983
	Space Transportation System, Cargo Projects, Launch Site Support Plan for Solar Maximum Repair Mission (SMRM) Annex 8 to Payload Integration Plan, JSC-14082	November 1983
	KSC Critical Systems Design Certification Review for STS-26R	March 10, 1988
