

ASTP SERIES
CHRONOLOGICAL FILES

This subseries consists largely of general correspondence. The files are basically in the original order as collected by the History Office at JSC. However, as additional unsorted material was sent to Rice, it was arranged chronologically and added to the file, making this subseries half again the size it was originally. These files, collected from a number of different sources, include letters, memoranda, TWXs, and miscellaneous material on various subjects. The arrangement is strictly chronological and covers the years 1957 through 1977. The bulk of the subseries, however, covers 1974 and 1975.
