

**SHUTTLE SERIES  
VOSS DOCUMENTS**

The documents in this subseries were given to us by Robert G. Voss of the NSTS Program Control Office. They consist of reports, presentations and papers regarding Pre-Phase A Shuttle studies, ILRV, and Phase B contract information. The dates range from 1967 through 1974 and, except for the pre-Phase A documents, they are arranged chronologically.

**Inventory**

|                    |   |                              |
|--------------------|---|------------------------------|
| <b>SubHeading:</b> | <b>Box Number: 104</b>                            |                              |
|                    | Chronological Files                               | May 1967 to Feb 20,<br>1970  |
| <b>SubHeading:</b> | <b>Box Number: 105</b>                            |                              |
|                    | Chronological Files                               | Feb (nd) 1970 to Dec<br>1974 |
| <b>SubHeading:</b> | <b>Box Number: 106</b>                            |                              |
|                    | Pre-Phase A Logistics Spacecraft<br>Documentation | Feb 1967 to Sept. 1968       |
|                    | Undated Material                                  |                              |
