

## SPACE STATION SERIES

### BOEING COMPANY

This series contains space station documents by the Boeing Company from 1965-1984. The type of documents include presentations, progress and final reports. During 1967, Boeing studied a Saturn V Single Launch Space Station & Observatory Facility for MSC (NAS9-6816). A Space Operations Center Systems Analysis Study took place in 1980-1982 (NAS9-16151). In 1983, Boeing studied space station needs, attributes, & architectural options (NASW-3580), in preparation for an imminent program.

### Inventory

<b>SubHeading:</b>	<b>Box Number: 01</b>	
	Multipurpose Mission Module, Final Oral Presentation, NAS9-3662	Oct. 19, 1965
	Detailed Study Plan, Program Study Outline - Saturn V Single Launch Space Station and Observatory Facility, NAS9-6816	Apr. 26, 1967
	Study Outline, Saturn V Single Launch Space Station and Observatory Facility Study Addendum, NAS9-6816	Nov. 1967
	Technical Summary - Addendum Study, Saturn V Single Launch Space Station and Observatory Facility, NAS9-6816	Nov. 1967
	Combined Mission Requirements, Saturn V Single Launch Space Station and Observatory Facility, NAS9-6816	Nov. 1967
	Combined Mission Concept Evaluation, Saturn V Single Launch Space Station and Observatory Facility, NAS9- 6816	Nov. 1967
<b>SubHeading:</b>	<b>Box Number: 01 *</b>	
	Saturn V Single Launch Space Station and Observatory Facility, Study Contract, Final Oral Review, NAS9-6816 * This 279 page document has been scanned	Oct. 1967
<b>SubHeading:</b>	<b>Box Number: 02</b>	
	Combined Mission Station Design, Saturn V Single Launch Space Station and	Nov. 1967

Observatory Facility, NAS9-6816

Combined Mission Program Plans and Cost, Saturn V Single Launch Space Station and Observatory Facility, NAS9-6816

Nov. 1967

Earth - Orbital Station Program Plans and Cost, Saturn V Single Launch Space Station and Observatory Facility, NAS9-6816

Nov. 1967

Earth - Orbital Station Utilization, Saturn V Single Launch Space Station and Observatory Facility, NAS9-6816

Nov. 1967
