

SPACE STATION SERIES
NASA - JAPANESE SPACE AGENCY DOCUMENTS

These documents are created under terms of the Memorandum of Understanding signed by the U.S. and Japan for joint development of the Space Station Freedom. They are filed chronologically.

Inventory

SubHeading:	Box Number: 1	
	NASA / NASDA Joint Architectural Control Documents, Ad Referendum Version	December 1988
	NASA / NASDA Joint Program Definition and Requirements Documents, Ad Referendum Version	December 1988
	NASDA-ESPC-840, Revision A, Japanese Experimental Module (JEM) System Specification	October 24, 1989
	JNASDA-30000, Section 7, NASA / STA Space Station Freedom Joint Program Definition and Requirements (JPDRD), Section 7: Space Station Information System Definition and Requirements	April 12, 1990
	JNASDA-30000, Section 9, NASA / STA Space Station Freedom Joint Program Definition and Requirements (JPDRD), Section 9: Product Assurance Requirements	April 12, 1990
	JNASDA-30000, Section 11, NASA / STA Space Station Freedom Joint Program Definition and Requirements (JPDRD), Section 11: Software Support Environment Requirements	April 12, 1990
	NASDA-ESPC-840, Revision B, Japanese Experiment Module (JEM) System Specification	September 18, 1990
SubHeading:	Box Number: 1 *	
	JNASDA-30000, Section 2, Part 2, NASA / STA Space Station Freedom Joint Program Definition and Requirements (JPDRD), Section 2, Part 2: Work Breakdown Structure * This 63 page document has been scanned	April 12, 1990

JNASDA-30000, Section 3,
NASA / STA Space Station
Freedom Joint Program
Definition and Requirements
(JPDRD), Section 3: Space
Station Systems
Requirements * This 117 page
document has been scanned

April 12, 1990

JNASDA-30000, Section 4,
Part 1, NASA / STA Space
Station Freedom Joint
Program Definition and
Requirements (JPDRD),
Section 4, Part 1: Space
Station Ground Operations
Requirements * This 55 page
document has been scanned

April 12, 1990

JNASDA-30000, Section 5,
NASA / STA Space Station
Freedom Joint Program
Definition and Requirements
(JPDRD), Section 5: User
Integration and Operations
Requirements * This 8 page
document has been scanned

April 12, 1990

JNASDA-30000, Section 6,
NASA / STA Space Station
Freedom Joint Program
Definition and Requirements
(JPDRD), Section 6: Function
and Resource Allocation * This
10 page document has been
scanned

April 12, 1990

JNASDA-30000, Section 8,
NASA / STA Space Station
Freedom Joint Program
Definition and Requirements
(JPDRD), Section 8: Technical
and Management Information
System * This 16 page
document has been scanned

April 12, 1990
